The highlighted items in this Table of Contents should be found in each lab discovery packet. The other items listed on this table of contents are case-specific.

Forensic Advantage Discovery Packet

Released Information

Regarding: P201300180 7

Requested: 8/21/2014   Dilday, Jonathan L.
4:20:19 PM

Packet: Case Record (Full)

Case Record (Full) means that the Case Record Full Packet was requested by the DA's Office. If this says Ad Hoc or Officer, then only a partial packet was requested.

All information and files related to the published case record.

Table of Contents:

This page lists every item that has been provided by the lab to the DA's Office

The Lab Report states only the analyst's final conclusions and does not describe what tests were performed. This is like an executive summary.

Lists the names of the analysts that performed the analysis and reviewed the case. Notes any problems found during review.

Where the analyst records all observations, measurements, and results.

Messages sent to the lab via FA or between analysts.

Each of these indented lines in the Table of Contents is intended to be a description of the item listed above and is not a separate item. The same is true for each indented item below. In Fall 2014, the lab will remove these descriptions from the Tables of Contents because they are mostly repetitive of the file name.

If the packet has been requested or downloaded previously by the DA's Office it will be noted here.
